

# How Much is your ACT Score really worth?

*"If you don't max out your ACT score, you're leaving money on the table."*

## The Value of your ACT Score

Few students truly understand the true worth of their ACT score. The lingering mindset concerning the ACT remains, "you take it once, you get what you get, and you move on."

Sadly, students aren't getting started early enough, and they are not putting the time and energy forward required to max out an ACT score. Therefore, families are leaving thousands, even tens of thousands, of dollars on the table.

*\*GPA is equally important as ACT score in determining scholarship allotments*
